Davis Didn't Do It.

Davis Didn't De It.

The Examiner this morning publishes an interview with J. C. Maynard, a prominent Democratic politician and ex-Insurance Commissioner of the State. During the last year of the war Maynard was General Depot Quarter Master at Richmond. When the Confederates evacuated richmond he received orders to furnish transportation to Danville. Among other property was about two hundred thousand dollars, mostly in silver, belonging to the State of Virginia, which was put on the cars at Danville and sent to Washington, Georgia, where by order of the Secretary of War Breckenridge, it was distributed among the soldiers. Jeff Davis had nothing to do with it. There was no specie belonging to the Confederation sent out of Richmond in wagons. Maynard believed that the reports of the sum of money belonging to the Confederacy at the close of the war were greatly exaggerated. The Executive Department had some money to its credit in Europe to be used for the purchase of supplies, but it is difficult to say what become of it.

There is an incorrigible little dar There is an incorrigible little darkey down in Washington, Ga. He is 9 years old, and is known as a borse thief, as well as being willing to steal anything else. His mother has tried to reform him by whipping him for the first half of the day, and hanging him up in a bag and smeking him the other half, but the inhabitants of Washington despair of his being a trustworthy citizen.

Scoville- Well, hold on a minute. We would like to know who is conducting this examination, is it you or I? Porter-I assume that the Court is conducting the trial, and (addressing the Court) I shall appeal to the Court for the enforcement of the rule's prac-tice. The witness is one of the most

Scoville, with some warmth: Well. let us see about it, Mr. Judge Porter. Guiteau chimed in with a hit at

Judge Cox interposed with a few smooth words and the examination proceeded some time without accident, when Porter again protested, saying: Scoville should not be permitted to

rebuke the witness.

Scoville—I can see no occasion for your speech. I have neither rebuked the witness nor had occasion to do so. This sort of by-play has lasted a long

As the witness was about to retire Guiteau said, "allow me to ask you if it is your opinion that a man cannot be insane in a specific act without having a diseased brain?"

Scoville assented to the question and witness said. "insanity means a disease of the brain." Guiteau asked another question, but

Judge Porter suggested to the witness that he hold no colloquy with the Gulteau (angrily)-I am no criminal any more than you are. I'm here as my own counsel, and I have as

call me a criminal. I stand a great deal better outside than you do. Plenme cut this short by saying, I'm in as good a physical condition as you are. Judge Porter demanded the inter-

ference of the Court to stop the prisoner's interruptions.

Scoville demanded that Porter make some proposition instead of making

speeches to the jury.

Porter, excited, said: You have in-

sulted a distinguished witness, and now assume to dictate the management of our case. Corkhill suggested that if this abuse was permitted the presecution would insist that the prisoner be removed to

the dock. Judge Cox-The Court has already

considered the advisibility of such a Guiteau-The Court has ho discretion in the matter. I appear here as my own counsel, in accordance with law and usage in every State in

the country.

The incident was evidently not without effect upon the prisoner, who seems to realize, now that he has boldly asserted that he is perfectly sane, that he will be held accountable to the sane rules of behavior.

Measures to Suppress Polygamy.

WASHINGTON, December 24. There is a strong determination among Congressmen to take measures to suppress polygamy. There is a well grounded fear that by recognizing the Governor's right to judge of the eligibility of a candidate for Con-gress, a precedent would be established which would give rise to endless trouble in the future.

One Experience From Many. One Experience From Many.

"I had been sick and mierable so long, and had caused my husband so much trouble and expense—up one seemed to know what alied me—that I was completely disheartened and discouraged. In this frame of mind i got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my ha-band and family thought it strange and unnatural, but when I told them what had helped me they said, "Horrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The MOTHER.

The play of "Twixt Loves," to be produced in its initial dress on the 30th inst., has been thoroughly rehearsed under able management, and promises to equal, if not eclipse, many of the so-called professional troupes, as each representative of the drama has entered into the spirit of the play with that zest and enthusiasm becom ing the experience of thespis. The costumes and mountings have been carefully attended to," and not the slightest detail has been overlooked to make the representation perfect. The costumes, especially, are marvels of the modiste art, and no doubt will cause a flutter in the breasts of the fair sex. Everything appertaining to the play has been purchased in Reno, and we feel sure that the citizens will help to make of this a success, by appreciating the endeavors of the oung management, and pack the ouse from floor to ceiling.

St. Louis pork men have discovered new wrinkle in the method of handa new wrinkle in the method of handling American pork in Europe. They say there is an unusually heavy demand for pork just now, the order coming from England. At Liverpool the meat is repacked with English brands, and in this condition finds ready sale in France and Germany. When asked how this could be, in the face of legal prohibition, a leading operator said: "It has been established by scientific experts that an English brand on American pork will knock the trichling higher shan Gliroy's kite.

Four students at Waconsta, Miss, stole a farmer's gate. The college faculty condemned them to expulsion, or the alternative of whatever punish-ment the farmer might inflict. He sentenced them to chop four cords of his wood and deliver it to a poor widow. They did it to the music of a band and the plaudits of a crowd that watched the operation.

A New Process for Preserving all Perishable Articles, Animal

and Vegetable, from Fermentation and Putrefaction, Retaining their Odor and Flavor.

"OZONE-Purified air, active state of oxygen."-Webster.

This Preservative is not a liquid, pickle, or any of the old and exploded processes, but is simply and purely UZONE, as produced and applied by an entirely new process. Once is the anti-aptic principle of every substance, and possesses the power to preserve anitant and vegetable structures from decay.

There is nothing on the face of the

There is nothing on the face of the certh liable to decay or spoil which Ozone, the new preservative, will not preserve for all time in a perfectly fresh and palatable condition. The value of Ozone as a natiral preserver has been known to our abler chemists for years, but, until now, no means of producing it in a practical, in expensive, and simple manner have been discovered.

Manner have been discovered.

Microscopic observations prove that decay is due to septic matter or minute germs, that develop and feed upon animal and vegetable structures. Ozone, applied by the Frentise method, selzes and destroys these germs at once, and thus preserves. At our offices in Cincinnatt can be seen almost every article that can be thought of, preserved by this process, and every visitor is welcome to come in, tastr, smell, take away with him, and test in every way the merit's of Ozone as appreservative. We will also preserve, free of charge, any article that is broughtor sent prepaid to us, and return it to the sender, for him to keep and test.

FRESH MEATS, such as beef, unition veni, pork, poultry, game, fish, &c., preserved by this method, can be shipped to Europe subjected to atmospheric changes and return to this country in a state of perfect preservation.

EGGS can be treated at a cost of less than one dollar a thousand dezen, and be kept in an ordinary room six mouths or more, thoroughly preserves; the yolk held in its normal condition, and the eggs as fresh and perfect as on the day they were treated, and will sell as strictly "choice". The advantage in preserving eggs is readily seen; there are seasell as articly "choice" The advantage in preserving eggs is readily seen; there are seasons when they can be bought for 8 or 1t cents a dozen, and by helding them, can be sold for an advance of from one hundred to three hundred per cent. One man, with this method, can preserve 5,000 dozen a day.

There is not a township in the United States in which a live man can not make any amount of money, from \$1,000 to \$10,000 s year, that he pleases. We desire, to get a live iman interested in each county in the United States, in whose hands we can place this Preservative, and through him secure the business which every county ought to produce. A FORTUNE Awaits Any Man who Secures Control of OZONE in any Township or County.

S2,000 in two months. \$2 for a test package was his first investment.

Woods Brothers, Lebanon, Warren County, Ohio, made \$6,000 on eggs purchased in August and sold November ist. \$2 for a test package was their first investment.

The Cincinnati Feed Co., 496 West Seventh Street, is making \$5,000 a morth in handling brewers' malt, preserving and shipping it as feed to a l parts of the country. Well unpreserved sours in 22 hours. Preserved by Ozone it keeps perfectly sweet for months.

F. K. Raymond, Morristown, Belmont Co., Obio, is clearing \$2,000 a month in handling and selling Oxone. \$2 for a test package was his first investment.

These are instances which we have asked the privilege of publishing. There are scores of others. Write to any of the above parties and get the evidence direct.

How to Secure a Fortune with Ozone A test package of Ozone, containing a sufficient quantity to preserve one thousand logen eggs, or other articles in proportion, will be sent to any applicant of receipt of \$2. This package will enable the applicant opurane any line of tests and experiments to pursue any line of tests and experiments to desires and thus action to have the desires and thus action to have the desires and thus action to be applicant to the desires and thus action to be applicant.

A test package of Ozone, containing a sufficient quantity to preserve one thorsand dozen eggs, or other articles in proportion, will be sent to any applicant of receipt of \$2. This package will enable the applicant to pursue any line of tests and experiments he desires, and thus satisfy himself as to the extraordinary merits of Ozone a Preservative. After having thus estisfied himself, of and had time to look the field over to determine what he wishes to do in the future—whether to sell the article to others, or to confine it to his own use, or any other like of policy which is best suited to him and to his township or county—we will enter into an arrangement with him 'hat will make a fortune for him and give us good profits. CREAT SOUTH AMERICAN PANACEA UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderfu. cures with roots and herbs. Is 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with 11, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keaping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh

as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball. In this handles position. Looks precisely like the looking ball, which stalk and ball, in the hanging position. looks precisely like it tongue of a bell. Hence Uncle Jo named the Bell Tongue Plaat. In South Amerithis berb is only jound in the extreme inte for of the country and the natives there of it. Zarr Nero."
